# An eye on your health: Comprehensive eye exams

An eye exam can be one of the first places to detect some serious eye and health conditions – like high blood pressure, high cholesterol and diabetes. Eye exams are essential for kids, too, since vision issues can seriously impact a child’s ability to learn.

And because you have EyeMed, your family can see eye doctors who offer the latest in vision technology giving them the best look into your eye sight.

## The exam includes:

- Dilation (if needed)
- Case history
- Patient observation
- Clinical diagnostic testing, including binocular function
- Refractive status
- Color vision testing
- Stereopsis testing
- Assessment, diagnosis and treatment plan

# We've got you covered: Your vision benefits at-a-glance

# A few more benefit basics

## Your frequency is based on: Date of Service

So, if you receive an exam today, you are eligible again one year from today's date of service.

## Contacts are in lieu of lenses only

That means you are entitled to a full pair of glasses (frame & lenses) OR contacts and frames (you would then receive a 20% discount on their lenses).

# Find your best fit
